

# 2004 Holiday Greetings from Aldene and Barry

**We wish you a wonderful holiday season ☐  
and a year full of health and happiness.**

During 2004 Aldene completed her degree in web design at our local community college and has a steady stream of new clients. She is also re-taking application classes to keep up with popular software as it changes.

Barry has been with Structural Integrity Associates for six years and is still enjoying being part of the company. He plays timpani in the Saratoga Symphony and represents Carnegie Mellon University at college fairs and interviews and writes recommendations for prospective students.

Both of us continue to bicycle enthusiastically and are involved in the administration of the 45-year-old Los Gatos Bicycle Racing Club (LGBRC). Barry is president as he has been for several years and Aldene produces the web site. We represent the club and our annual bicycle race, the "Cat's Hill Criterium" at Los Gatos Chamber of Commerce activities.

Perhaps the most exciting news for 2004 was that under Barry's direction the Los Gatos Bicycle Racing Club was selected by USA Cycling as Club of the Year.

Each year, USA cycling, which is part of the US Olympic committee, selects one of many clubs nationwide as the best example of organization, training, racing results and giving to the local community. The LGBRC won National Championships in road, track and mountain bike racing in 2004.

We completed six trips, five for business, in eight weeks this summer including Denver, Jackson Hole, Birmingham, AL, Richland, WA, Toronto and (finally) a vacation in Hawaii.

We chose Kauai for our first trip ever to Hawaii and it was fantastic, with snorkeling every day!

Toronto was also great, as highlighted by a visit to the hockey Holy Grail, the Stanley Cup, at the Hockey Hall of Fame.

Bob and Haley at home,  
Bob with his "Cat Hat."
