

# 2015 Greetings from Aldene and Barry

March ~ Annual NACE conference, this time in Dallas, TX. Aldene with Bronze Steer statues near convention center. (As is typical, Aldene plays while Barry works!)

March ~ Aldene's XXth birthday with Haley and Barry

We stay at Pine Acres Lodge, our small, affordable time share in Pacific Grove twice a year: in May & Oct.

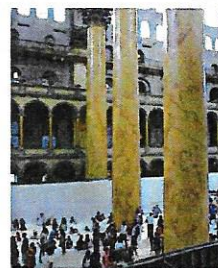

Barry was diagnosed with prostate cancer in May. Fortunately, it was discovered in a very early stage, and we opted for aggressive treatment: radiation therapy that lasted for 9 weeks. His PSA levels indicate that the treatment was successful.

Aldene, again with Barry's help, competed in the Northern California/Northern Nevada district time trial in Sattley, CA

July ~ Termites!! Unwanted guests have been in our house for a while, and we finally got rid of them (we hope!)

September ~ with his radiation therapy accomplished, Barry taught his corrosion class in Washington, D. C. where we visited the "beach", an exhibit set up with styrofoam balls, where visitors could surf and play.

September ~ Barry taught in Overland Park near Kansas City where we visited one of the many remarkable museums (and ate wonderful BBQ!). This photo, taken in the Negro Leagues Baseball Museum, near Artur Bryant's famous BBQ and American Jazz Museum.

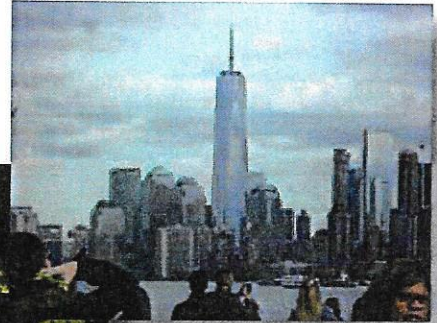

October ~ Barry and Aldene attended Barry's 50th High School Reunion in Long Island, NY.

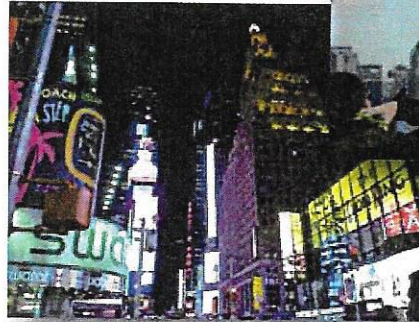

Over for Page 2 --->

August ~  
Gettysburg,  
Antietam,  
Harper's Ferry

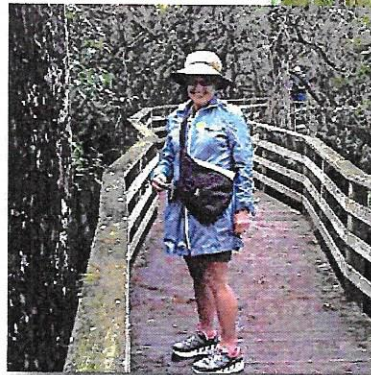

October ~  
New York City, where we  
stayed near Times Square

October ~ Bad Traveller's Luck!  
Returning from work in  
New York, Barry's flight was  
postponed in Chicago,  
where he spent the night  
on a cot alongside  
other fellow travellers

Florida! The temperature  
was consistently 85+ !!

\*Swamps near Ft. Myers

\*Sunshine Skyway Bridge

\*Historic (1928) Don CeSar Hotel in  
St. Pete Beach where Barry WORKED  
while Aldene played with friends.
